Dear Mr. Currelly:

I have just received through Professor J. Grafton Milne, casts of three Metapontine coins, of which you kindly permitted him to make impressions for me.

I want to thank you for this permission and to repeat the invitation I asked Professor Milne to convey to you - that we shall be very glad to welcome you at our Museum whenever you are in New York.

Should you acquire any other Metapontine pieces, or if you know of any collections in Toronto which are likely to include them to which I might write for casts, I should greatly appreciate a word from you in that regard.

Very respectfully yours,

Secretary

Dear Dr. Currelly:

I am to read a paper before the Archaeological Club in Toronto on Saturday night, the 23rd; and as I must come from Buffalo earlier in the day, I am not sure that there will be very much time for me to see your Museum. If there is, I want to make use of it. Will you kindly write me C/o Mrs. J.J.Albright 730 Ferry Street, Buffalo, whether or not it will be possible for me to see you when I am in Toronto.

Is the Museum open on Sunday afternoons?

Very truly yours,

Secretary

Dear Dr. Curelly:

It occurred to me this morning that I had not written to tell you why there had been no acting upon your kind invitation to visit you when I took my vacation this year, as seemed possible when I was in Toronto last. The reason it is not possible has developed since that time. This has taken a form which makes me class myself hereafter as a Benedict. The consequent change of plans prevents my usual fishing trip for this year.

Would you be so good as to remind Miss Harcum about the photograph of the Chinese vase with the relief heads of Athena, which she was going to have photographed for me? There is no urgency in the matter, but I should very much like to have a reproduction of the vase and look up some of the questions raised about it.

Very sincerely yours,

Secretary
